

I support the Petition for Reconsideration of the Rule
for Broadband over Power Line (BPL)
filed on 11 December 2004 by Cortland Richmond.
It is incumbent upon the FCC commissioners
to respond in good faith to the Petition, and not
to dismiss the Petition.

Part 15 was never intended to be used
by a transmitter/antenna system having a
Radio Frequency footprint the size of a whole county.
And that is exactly what BPL does.

Sincerely,
Bonnie Crystal
RF Engineer
